Vision Statement

The Alliance of Jamaican and American Humanitarians strives to improve and enhance health, education and social well being of the people served throughout our local communities and the Caribbean.

Anthem

One by One, we link together  
reaching out to help one another.  
AOJAH, make a change and a difference.  
AOJAH, live our lives through persistence.  
AOJAH, AOJAH, AOJAH,  
We’re here for you.
Welcome from the President

On behalf of our Board of Directors and our entire membership of AOJAH, it is my honor and privilege to welcome you to AOJAH’s 8th Annual Fundraising Gala and genuinely thank you for being here and supporting our efforts. Special appreciation to all that have travelled across many states to get here.

AOJAH is a charitable, non-profit member and volunteer supported organization which is inclusive and accessible and dedicated to serving the less fortunate. Two areas that truly underscore our commitment to the underserved are the dedicated board and volunteer team that we have built. We are always searching for ways to enhance our work.

Our theme tonight is “Celebrating the Diversity & Distinction of Our cultures”. Culture is described as the customs, arts, social institutions and achievements of a particular nation, people or other social group. Tonight we celebrate our cultural diversity and distinctions that make us unique and interesting and I ask that we continue to show tolerance, understanding and respect of each other. Hope that you have visited our Silent Auction and enjoyed the displays depicting many of the cultures that are a part of AOJAH through the Board, our members, our volunteers, you our supporters and the people we serve.

Tonight we come together to support and celebrate our collective achievements of 2018. I am proud to highlight a few:

We continue to support our low income and homeless population through our annual health and wellness event in the skid row area by providing eye exams, medical & nursing screenings, hygiene bags and scrumptious hot meals. We have awarded 4 four year local scholarships to needy students. With much planning and coordination, we conducted our 8th medical, eye and education mission to Jamaica. This continues to be a multifaceted endeavor which have made a difference in many lives.

Our video presentation reflects all the work accomplished through your support, our committed volunteers and members and a dedicated and passionate Board of Directors.

We must never forget the humble beginnings that many of us came from and that should inspire us to lift others higher toward success. We have the means, ability and understanding to make a difference. Many of you have made the choice to do something to help, giving hope to many people, which truly brings out the best in us as human beings, and for that I am truly grateful. We must always ask ourselves ”What will Our Legacy Be”?

I want to take this opportunity to thank you our supporters, our generous sponsors, our members and Board of Directors and their supportive families. I invite all of you to support our philanthropic endeavor in making the less fortunate see a visible improvement and restoring hope in their lives. Congratulations to our 2018 Honorees!

I will continue to strive to make AOJAH’s work the best it can be. We look forward to 2019, staying the course and living up to our vision and realize our mission. The funds raised tonight will continue to support our goals. I want to say once more on behalf of our Board of Directors and our membership, welcome and enjoy a wonderful fulfilling and entertaining evening, while supporting this worthy cause.

Thank you again for your support and generosity.

Joan Crawford-McDonald

50% Tax Deductible
Dr. Jeffrey Brettler
grew up in Southern California and received his medical degree from the University of Chicago Pritzker School of Medicine and did his Internal Medicine training at Harbor-UCLA. Jeff has been practicing for over 25 years as a board certified Internist at the Kaiser Permanente West Los Angeles Medical Center where he currently serves as the Assistant Medical Director. Jeff also serves as Southern California Kaiser Permanente regional Hypertension physician leader.

Dr. Brettler is an author for the British American Journal which is a weekly peer review medical journal and one of the world’s oldest general medical Journals. He writes for them often by providing updates on the latest JNC8 guidelines on hypertension. He also has recorded podcast for the British American Journal.

Dr. Brettler is no stranger to volunteer work. He travels to Honduras every spring to volunteer on medical missions. In 2005, Jeff felt strongly about traveling to New Orleans when Hurricane Katrina hit, he couldn’t sit at home knowing he could contribute and assist with the public health crisis. He jumped on a plane and navigated his way to the American Cross to deliver care to the needy during this disaster. Jeff volunteers monthly at the THE (To Help Everyone) clinic on Western Avenue, this clinic has been improving the wellbeing of underserved communities in Los Angeles by providing access to healthcare and preventative education for all, regardless of ability to pay. Jeff is bilingual which comes in extremely beneficial during his work in the local community.

Dr. Brettler joined the AOJAH team nine years ago and began volunteering his time caring for the underserved. Being the hypertension expert, Jeff has lectured during AOJAH’s yearly medical seminar for several years, during his talk you can see the interest in the research and new updated Hypertension therapies that he presents to the medical and nursing staff.

As a matter of fact Jeff has a regular clinic in an area called Queenshythhe in St. Ann. He looks forward to seeing his patients yearly and they look forward to seeing him, especially one patient who has a hole in her heart and congestive heart failure and cannot afford surgery. This patient has been thriving due Dr. Brettler’s medical care, without certain medicines she would not survive and Jeff has made every effort to assure her medicines are obtained for her yearly and provides the year’s supply. She and her family are extremely grateful to Dr. Brettler.

Jeff maintains a plant based diet and on the mission he is always sympathetic to the goats, he once said he sees the goat going by on a rope in early morning coming back on the lunch plate by midday!

Jeff describes himself as an exercise enthusiast, I would describe him as an exercise fanatic. He
is passionate about running, especially when it comes to ultra-running which is a race of any distance over 26.2 miles. He has completed 10, 100 mile races, including Western States Endurance Run. This race takes place on trails in California’s Sierra Nevada Mountains and you must run another 100 miler to be granted entry. The terrain is extremely rugged, runners ascend a cumulative total of 18,090 feet and descent a total of 22,970 feet on these mountain trails and must finish the 100 miles in 30 hours.

Jeff is often concerned with the needs of others than his own. Jeff and his wife Kim ran the Boston marathon together in 2013 when the double bombings occurred near the finish line. They finished the marathon just minutes before the first bomb. While Kim was trying to convince Jeff they needed to evacuate the area, Jeff sacrificed his own safety at the expense of assisting other injured runners. When the second bomb exploded, Jeff was assisting an injured runner into a wheelchair and then it became apparent the bombs bloodied the finish line and police officers and first responders started closing the course. Another example, of how Jeff is always giving to others!

Jeff is a man of integrity, always believe in doing the right thing. He is disciplined and well respected. He is the Doctor’s doctor, many physicians seek him out to be their doctor.

Jeff is married to Kim Alexander who he met on a blind date, as you can guess by now, Kim, had to become a runner just to get to talk to Jeff! They both have two beautiful daughters, Danielle & Lauren. Jeff, Kim and their daughters all come to Jamaica and volunteer on the mission. He is a die-hard Laker and Rams fan!

The Alliance of Jamaican & American Humanitarians congratulate Dr. Jeffrey Brettler and honor him for his dedication and passion for serving.
Virginia Zeitjian
was born in Canada and has been in California over 34 years. She has also lived in Detroit and Seattle. She received her pharmacy degree from Wayne State University in Detroit and has served as a pharmacist for over 34 years working most of those years at Good Samaritan Hospital in Los Angeles.

Virginia is the consummate volunteer, she joined the AOJAH group as a member and began volunteering with the Medical Mission to Jamaica 5 years ago. She is one of the first volunteer to respond regarding going on the mission and lends her time to sort medication and supplies prior to going on the mission. She also reaches out to see what is needed and donates her time & funds to obtain pharmacy supplies for the mission. During the medical mission, Virginia works tirelessly on her feet the entire day, filling prescriptions and educating the patients with such compassion and endless energy! She has been a stable force and serves with great enthusiasm.

Virginia is also committed to the local community, where she volunteers with AOJAH for the homeless in the Skid row downtown area. She can be seen tossing the salad or assisting with the workflow. Virginia is extremely busy, but, she makes volunteering a priority.

Virginia is married for 30 years to her husband Sarkis and has two sons, Vicken and Armen. Vicken is a resident specializing in Cardiology and Armen is in his second year of medical school. She is an amazing mother who has brought up her sons with values, morals, and ethics. Virginia has strong faith and believes in prayer.

Virginia loves photos and often takes many pictures. She is, however, very picky about the background and surroundings of the photo, taking extra time and effort to rearrange furniture and people until it is just right. Once while entertaining during a holiday season, her guests were gathered around a full buffet of home-made food waiting to be eaten. She had everyone salivating while she made the perfect background for the picture. Her friends and family laugh and remember that get together!

The Alliance of Jamaican and American Humanitarians congratulate Virginia Zeitjian for her unwavering commitment and dedication to underserved communities.
Scholarship Award Recipients

Local Scholarships
• 4 (four year) scholarships in the amount of $1,000 yearly awarded to:
  Ivy Cohen - Legacy High School
